Agreement by City of Dilley to Bring New Jobs to the Area

The City of Dilley, Core Civic and Target Logistics are in the process of reopening a residential detention facility in the Dilley area.

The Dilley City Council took action on March 4, 2025, to approve an amendment to the current Intergovernmental Services Agreement with the U.S. Department of Homeland Security's Immigration and Customs Enforcement Service. This amendment allows the facility to soon reopen, and Core Civic has already begun hiring staff to fill approximately 650 full time positions the facility will create.

"The direct impact is substantial but once we factor in the indirect impact, the economic benefits are huge for the area," said Henry Arredondo, City Administrator.
